Summary of reasons for decision:

The publication is a computer moving image file which explicitly depicts a BDSM spanking scenario. One excision is required to remove a sequence that results in the publication promoting and supporting the use of urine in association with sexual conduct. In this instance the owner of the publication did not respond to the excision notice within the required time.

The publication is classified as objectionable. This classification interferes with the freedoms set out in the New Zealand Bill of Rights Act 1990, but this outcome is unavoidable and consistent with Parliament's intention to prevent the availability of publications that promote or support the use of urine in association with sexual conduct under s3(2)(d) of the Films, Videos, and Publications Classification Act 1993.
